UAS Part 107 Ground School and Flight Training

This three day (24 HR) training will prepare the student to take the remote pilot knowledge exam to obtain their FAA Remote Pilot Certificate and provide the skills necessary to become a proficient UAS Pilot in Command.

Course Highlights:

- Remote pilot knowledge exam test preparation including the required topics of:
 - Regulations
 - Airspace and Requirements
 - Weather
 - Loading and Performance
 - Operations
- Practice test questions reviewed with instructor
- Access to practice exams
- ASA 2023 Remote Pilot Test preparation guidebook.
- UAS equipment familiarization
- Pre and post flight checklists
- Proper drone set up and breakdown
- Hands on flight time for flight proficiency
- Flight and mission planning
- FAA authorizations and waivers
- Includes FAA Part 107 rule changes effective 4/21/2021, including operation over people, night operations, and remote ID

Training is provided by an FAA Remote Pilot with specific Public Safety knowledge and proficiency.
