

PIX4Dmatic

MAY 7-9, 2024

PIX4DMATIC FOR CRASH RECONSTRUCTION AND FORENSICS WHEAT RIDGE, CO

This 3-day course will provide attendees with the necessary instruction to successfully process a crash or crime scene using aerial photogrammetry with Pix4Dmatic software. This training provides a “crash/crime scene to courtroom” workflow utilizing Pix4Dmatic generated ortho-mosaic images and point cloud data in third party crash reconstruction and forensic software. Use of the Pix4Dcatch mobile application and the Pix4Dcapture Pro flight planning application will be covered. This course consists of classroom lectures, hands on work projects and field exercises. Course includes a 30 day full access Pix4Dmatic license for each student. Each attendee is required to bring his or her own laptop computer. Acceptable laptop specifications are available on our website.
